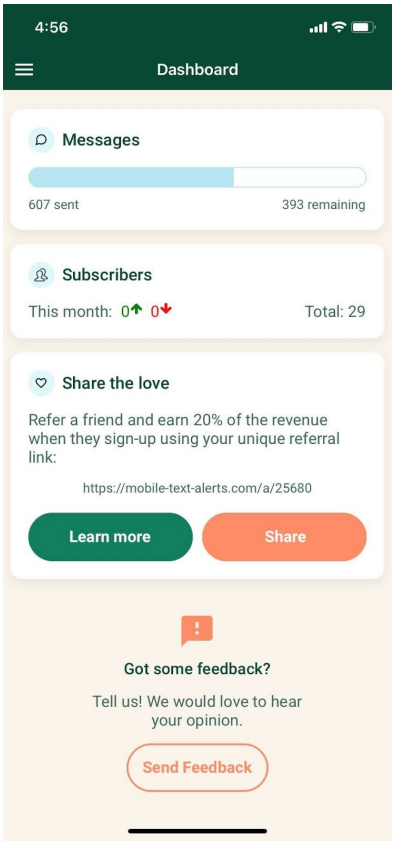
Dashboard (Mobile App)

C.J - 2025-05-27 - Comments (0) - App Pages

Your Dashboard summary on your mobile app will show you some basic info about your account's messages and subscribers:



The "Messages" graph displays how many messages you've sent during your current billing cycle, as well as how many messages you have remaining. (Tapping this graph will take you to the "Send a Message" tab so that you can initiate a message.)

The "Subscribers" graph shows you how many subscribers you've added this month (green number on the left), how many you've lost this month (red number on the right), and your total number of subscribers right now. (Tapping this bar will take you to the "Subscribers" tab so that you can view and manage your subscribers.)

Below that you'll find your referral link. If anyone signs up using your referral link you'll receive 20% commission for any revenue they bring in. (They'll also

get 50% off their first month if they use your referral link to sign up.) You can tap "Share" to share this link with your audience or acquaintances.

Lastly, don't hesitate to hit the "Send Feedback" button at the bottom if you have any thoughts or comments, whether positive or negative, about the app. The more feedback we get, the better we can make the app experience!
