

## How do I upgrade or downgrade my plan?

Sam Pelton - 2025-08-13 - Comments (0) - Billing

If you're on one of our regular paid plans, you can upgrade anytime under your [Billing->Manage Subscription](#) tab. The system will charge a prorated amount based on how much you paid already and how much time is left in your subscription (if you're on an annual plan).

To downgrade to a lower plan, submit a support ticket to [contact@mobile-text-alerts.com](mailto:contact@mobile-text-alerts.com) letting us know which plan you'd like to switch to and we can get it switched over for your next billing cycle. (You can view the current plans [here](#).)
