How to Send a Message (Mobile App) C.J - 2025-05-27 - Comments (0) - App Basics

Once you have some <u>subscribers added to your account</u> you can start sending messages.

To send a message, go to the "Send a Message" tab.

Select the following:

- Your desired recipients for your message
- What date/time you'd like the message to go out
- Whether you'd like your message to be sent as SMS ("regular" text) or MMS (picture message, which allows for more characters and counts as 3 message credits each)
