NEW! Navigation Update

Sam Pelton - 2025-06-26 - [Comments \(0\)](#) - [Platform Basics](#)

The navigation in your Mobile Text Alerts dashboard has gone through an overhaul!

Here's what the new navigation looks like:

The new update is less cluttered, so that you can find your way around the dashboard more easily.

This more streamlined approach makes for a smoother experience for you so you can focus less on navigating the dashboard and more on creating amazing SMS campaigns.

Here's a brief rundown of each new tab:

- **Dashboard**

- **Inbox**
- **Send a Message**
- **Scheduler** (formerly "Scheduled Messages")
- **Workflows**
- **Message Logs** (formerly "Messages Report")
 - Also includes "Campaigns" report
- **Subscribers**
- **Groups**
- **Analytics** - includes the following:
 - Subscriber Report
 - Unhealthy Subscribers
 - Link Tracking
 - Opt-Out Report
- **Growth** - includes the following:
 - Keywords
 - Opt-In Forms
 - Chatbots
 - Drip Campaigns
