When do my messages reset?

Sam Pelton - 2025-06-21 - Comments (0) - [Sending Messages](#)

On the default auto-billing, your monthly message counts will reset according to your billing cycle.

So whatever date of the month your subscription renews is the date that your message counts will be set back to 0 and you'll have a full month's worth of messages available.

(This is true of both month-to-month and annual accounts.)
