

Where do I see message replies? Can I receive them on my phone?

Sam Pelton - 2025-06-20 - Comments (0) - General

You can view message replies under the [Inbox](#) tab. You are able to have the replies forwarded to a phone by entering in a phone number under [Settings](#)->Messages.

(Note that even if replies are forwarded to your phone, you will not be able to respond back to the contact through the text thread in which you receive the forwarded replies. You can go in to your Mobile Text Alerts inbox to reply back, or send the contact a personal text from your phone.)
